

CafféPress
PRECISION SCREENS

Espresso Puck Screen

Factory Direct • OEM

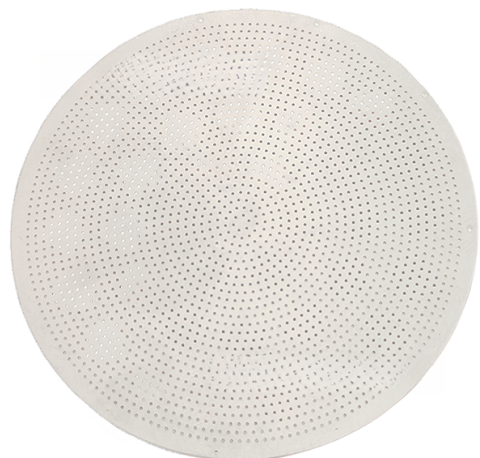

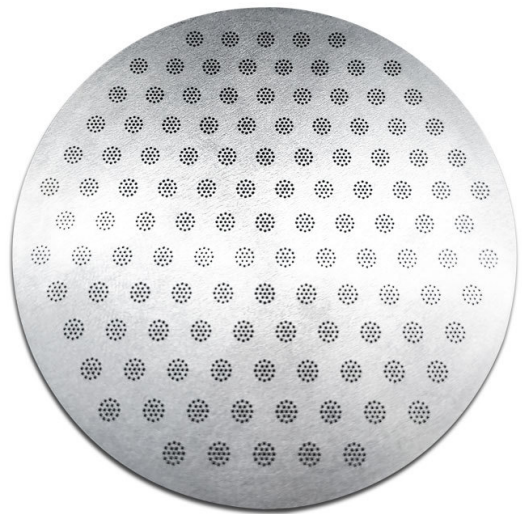

Product Overview

Our Espresso Puck Screen is a premium stainless-steel filter designed to optimise espresso extraction. It evenly distributes water, prevents channeling, and delivers a cleaner, more consistent shot—trusted by specialty cafés, coffee chains, and home baristas worldwide.

Key Features

- **Premium Material:** Food-grade 304 stainless steel, corrosion-resistant.
- **Precision Mesh:** 150 µm ultra-fine holes for even flow.
- **Universal Fit:** 58 mm / 53 mm / 51 mm.
- **Enhanced Crema:** Minimises channeling, boosts crema.
- **Easy Clean:** Rinse or soak; built for long-term use.

Why Choose CafféPress

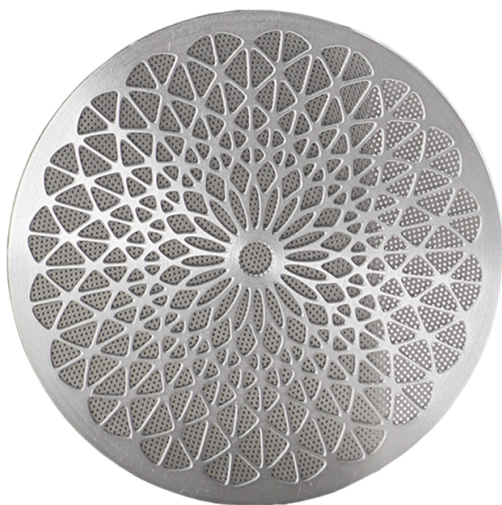

- **Factory-Direct Pricing:** Competitive wholesale rates, flexible MOQ.
- **OEM & Branding:** Custom logo engraving, patterns, sizes, packaging.
- **Stable Supply Chain:** Fast lead times, bulk capacity.
- **Market Trend:** Fast-growing accessory—ideal for resale and e-commerce.

Company Profile

CafféPress, founded in 2006 in Dongguan, is a leading manufacturer of precision metal-etched components. Our Espresso Puck Screen is EU CE certified and LFGB compliant, trusted by coffee professionals in Europe, North America, and Australia. We provide full OEM/ODM services to help brands create unique, high-quality coffee equipment solutions.

Specifications

- **Material:** 304 / 316 / 316L SS
- **Thickness:** 0.8 mm
- **Diameter:** 58 mm (others on request)
- **Pattern:** Hexagonal (customisable)
